

Project Bulletin

Department of Energy Idaho National Laboratory

Project

To provide multiple office complexes totaling approximately 11,000 square feet at the Test Reactor Area for the decommissioning of a nuclear reactor.

Project Details

The building sizes ranged from a 12'x25' self-contained comfort station to a 56'x64' office complex with private offices and cubicles. The buildings are located on the Idaho National Laboratory site.

Time to Complete

Pacific Mobile was given a notice to proceed August 2005 and the client was able to occupy in September 2005. The project was completed on time and on budget with NO SAFETY VIOLATIONS.

Special Features

Each building met the necessary IBC, NEC and NFPA requirements. Pacific Mobile also provided a complete CAT 5 telecommunications system.

Pacific Mobile is an experienced DOE Small Business Contractor.
