

Project Bulletin

Ozette

Project

To construct and install a 3,000 sq. ft. dormitory with a 1,930 sq. ft. Ranger Station residence with a two-car garage.

Project Details

These classrooms featured site-built roofs, a site-built hallway in the Dormitory building, and the entire project was completed in a remote rainforest in western Washington.

Time to Complete

The project started May 2005 and was completed in January 2006.

Special Features

This office building featured items such as painted sheetrock interior walls, painted interior doors/window trims with accent walls, 1/8" block tile flooring, 28 ounce nylon carpetings, painted sheetrock ceilings, lap siding with standing seam metal roofs and rodent-proof underside.
