

Scholarship Program

Our scholarship program demonstrates our company's passion for life-long learning. The employee program recognizes the achievements of the sons and daughters of Pacific Mobile Structures' employees and provides opportunities for them to achieve their dreams and career goals.

Additionally, we award thousands of dollars each year to local high schools and our community college. We have invested more than \$78,000 locally since our programs began in 2005 and we continue to expand and build on our support for higher education.

2014 Scholarship Recipients:

Students submitted essays where they were evaluated by an independent committee based on merit, academic performance, financial need, community involvement and academic pursuits.
